8.c. (1) Objective of PREE

- To provide a broad review of EE goals, EE strategies, institutional setup, and policy measures in **all sectors** for a **volunteer economy**.
- To provide **recommendations** based on best/high performance practices in order to implement **best practices** in as many economies as possible.
- To hold **a forum** to further discuss key issues highlighted in the PREEs(integration of Cooperative Energy Efficiency Design for Sustainability (**CEEDS**)).

8.c. (2) Follow-up PREE

- In 2012, the **Follow-Up PREE** was designed to assist former PREE host economies to implement the original recommendations from the PREE review teams.
- The objective is to **fill the gap** between the implementation of energy efficiency action plans and the monitoring and evaluation of those plans.

8. c. (3) Progress of PREE

- A trial **Energy Efficiency Policy (EEP) Workshop** was held as a Self-Funded project in conjunction with EGEE&C 45 in Singapore
- **The trial EEP Workshop** focused on the fundamentals of energy efficiency **policy making** and the development of stable **funding mechanisms** for agencies and programmes.
- **40 participants** including representatives from **14 economies** attended the trial EEP Workshop.
