The 52nd Meeting of APEC Energy Working Group (EWG)
Moscow, Russia, 19-20 October, 2016

11.b. Conference on APEC Green Energy Finance

Takato OJIMI
President, APERC
The conference took place over two days with five panel sessions

- Development Trends in Green Energy Finance
- Best Practices and Policy Sharing:
  - Economies’ Perspective
  - Developers’ Perspective
  - Institutions’ Perspective
- Prospects for Cooperation in APEC

APERC made two presentations on the results of the 6th Edition APEC Energy Demand and Supply Outlook in the final session

- High Renewables and Improved Efficiency Scenarios: Pathways to Achieving APEC’s Energy Goals
- APEC’s Doubling Renewables Goal: Investment Implications
Benefits to APERC

• Opportunity to present the results of the 6th Edition APEC Energy Demand and Supply Outlook and promote APERC’s research among members of the green energy finance community.

• Direct access to insights on new developments, policy opportunities and challenges in green energy financing in the APEC region from a multitude of stakeholders directly involved in project development.

Highlights of the Mission

• Key themes were how to scale up projects through information sharing, promoting term-sheet replicability, reducing policy uncertainty and supporting financial innovation.

• Development banks will play a crucial role in developing and demonstrating the business case for green energy projects as the industry attempts to prove commerciality to the private sector.

• Enhancing public-private partnership is seen as important to providing greater access to funds and accelerating the implementation of green energy projects.
Future projects at APERC

• APERC is working on an enhanced investment outlook for the 7th Edition APEC Energy Demand and Supply Outlook.

• A new research paper focusing qualitatively on the range of policies being implemented to encourage green energy finance across APEC economies.
Thank you for your kind attention
